- Adjustable lifting saddles can be raised and extended to desired position.
- Made in USA

Description

Norco Air Lift Jack with a 10-ton capacity at 200 PSI features a lift height from 12-1/2" to 50". Designed for lifting the entire front or rear of a vehicle, this heavy-duty jack, made in the USA, is ideal for truck and farm equipment dealer garages, heavy-duty construction repair shops, and bus company garages. This unit features a three-way, heavy-duty air valve to provide fine control when lifting or lowering a vehicle, and an automatic safety lock engages in six different height positions, independent of the air pressure. The two adjustable lifting saddles can be raised and extended to the desired position, and this unit also includes two 12-1/4" pneumatic rear tires, as well as a 6" front swivel caster wheel, to provide easy maneuverability. Model 82950 pictured with same basic construction. Note: Freight charges for this product will be calculated after order is

placed, and we will contact you with the amount. Please call if freight quote is desired before ordering. Norco charges a limited access fee for shipments to military bases, schools, churchs, and all other gated areas, as well as charging a substantial fee for re-delivery of order, lift gate use, and residential delivery.
